Site Supervisor

Mark Love

m.love@robertson.co.uk

Oakburn Early Years Centre is being built on the site of the former St. Joseph's Primary as part of the Council's commitment to deliver on the Scottish Government's requirement for additional hours of early learning and childcare.

Construction Progress:

This is an update on the progress at Oakburn Early Years Centre as we go into week 54 of the project. Since our last letter we have commenced our soft landscaping area to the rear of the building and the internal cladding has started to progress. The interior fit out has continued with decoration and mechanical and electrical works progressing well. We have started road and water connection works on Craighdu Road that will run until the 30th November. This will involve three & four-way traffic lights at the site entrance. Pedestrian diversions will be in place to minimise disruption.

Community Activity:

Robertson are registered partners in the Considerate Constructors Scheme and have had a site visit to evaluate our integration within the local community. We have employed local resources to aid with construction of the project and have also engaged with local schools as we look to provide further assistance within the local community as part of the Community Benefits Scheme. The site is monitored by remote security cameras covering the full site.
